

## Mini Clothes Pin Structure

### Lesson: Engineering

#### Materials Needed:

- Mini Wooden Clothespins
- Craft Sticks

#### Steps:

- Divide students into groups.
- Challenge students to build the tallest structure possible using mini clothespins and craft sticks.

#### Discuss:

- Did the angle of the clothes pins impact the strength of the structure?
- How did the number of clothes pins used at the base impact the structure?
- What were the challenges in getting the structure to stand?
